v5.0

SPECIAL UNITS:

A. **COMMANDO:** These special infantry units attack at a +1 during amphibious assaults and airborne drops. FEC can build 1 of these special infantry units per turn, totaling no more than 4 on the board at one time. ANZAC can build 1 of these special infantry units per turn, totaling no more than 2 on the board at one time. These units use the combined arms rule for infantry.

SPECIAL RULES:

1. COLONIALS: The industrial complex in Calcutta can produce 3 infantry and 3 other units each turn. The 3 infantry must be purchased first. However, no capital ships can be built in Calcutta or Sydney.

2. CALL TO ARMS: On the turn that Great Britain (London, Liverpool, Scotland, Belfast) is attacked, FEC infantry cost 2 Production for that round only. On the turn that Australia and/or New Zealand are attacked, ANZAC infantry cost 2 Production for that round only.

NATIONAL OBJECTIVES:

1. + 5 Production for FEC if they are at war with an Axis power and still control Hong Kong, Singapore, and Calcutta.

2. + 5 Production for ANZAC if Allied powers control Dutch New Guinea, New Guinea, Rabaul, and the Solomon Islands.
